Pitch Deck v1.3 – Professional

Vision

Building transparent, configurable, and verifiable on-chain utility infrastructure on BNB Smart Chain.

The Problem

Lack of transparency in token mechanics, unclear allocations, and overpromised yields without infrastructure.

The Solution

Fixed supply, transparent allocations, public blockchain verification, and live staking infrastructure.

Token Overview

BEP-20 on BNB Smart Chain with 1,000,000,000 fixed maximum supply.

Distribution Framework

Liquidity 20%, Strategic Reserves 30%, Contributors & Builders 25%, Public Ecosystem 15%, Partnerships 10%.

Staking

Live staking dApp with funded reward pool and lock-based participation.

Transparency

All major allocations and staking operations are visible on-chain.
